

Versana Premier

Care with Confidence

ELEVATE YOUR DIAGNOSTIC CAPABILITIES WITH **Versana Premier™**

Powerful. Versatile. Productive.
World-class ultrasound designed for peace of mind.

Whether you're working in an orthopedic clinic, independent imaging center, hospital radiology department, general practice office, health checkup center or other facility, you can count on Versana Premier, the premium system from the Versana family of ultrasound systems, to reliably produce high-quality images for the patients you see daily. In addition to performing a broad range of MSK ultrasound examinations, you can use Versana Premier to deliver highly specialized scans.

General, Musculoskeletal, Pediatric, Nerves, Technically difficult studies

A PARTNER YOU CAN TRUST

Reach new levels of excellence in diagnostics and reporting

Versana Premier from GE Healthcare, a trusted healthcare partner, is a reliable and easy to use ultrasound system. With advanced capabilities and educational support, our complete solution can meet your practice's needs now and into the future.

World-class image quality supported by the **VisionBoost*** advanced imaging platform

Multi-gesture functionality* enabled by a sensitive touch screen that results in an intuitive, intelligent workflow

Includes **Whizz clinical features** that save time and simplify workflow

Completely backed by GE Healthcare for **education and service**

Supported by **Scan Coach**, a reference tool to help you obtain desired scan planes

The flexibility to **grow** with your system by purchasing additional software features and probes

*Available on Versana Premier V2.

**WIDE RANGE
OF PROBES**

A COMPLETE SOLUTION

A versatile, intelligently productive ultrasound system that meets your needs

Multiple exam protocols, tools and applications help you diagnose a wide spectrum of orthopedic conditions accurately and efficiently

Easily compare current and prior exams and track treatment progress with **Follow-Up Tool**

Adjust needle gain and angle when you add **Needle Recognition Software**, which provides precise and accurate display of the needle, anatomy and motion

Create custom exam protocols and standardized workflow with **Scan Assistant**

Make automated **2D Measurements** and **Volume Calculations** in certain applications

Automated labeling of the Right Kidney, Gallbladder, and Liver in the RUQ with **Whizz Label***

Enhance or suppress the color flow signal with **Whizz Color Flow***

Shift between Smooth Mode and Sharp Mode to view image features as preferred with **Whizz Easy Style***

Optimize images while scanning with **Whizz Dynamic Image Tuning**

Save time with **25-Second Reboot Speed*** and simplified patient management, scanning and reporting workflows

Upload images and reports to the **Tricefy™ Cloud**** or network storage (EMR, PACS) for consultation or sharing with patients

Use **Battery Power** to move the system from room to room without powering down

Add **Voice Comments** to exams

*Available on Versana Premier V2.

**Requires internet connection and a Tricefy subscription.
